

What will the future bring?

Climate Essentials Workshop

7.15pm, 4th June 2024

Bakewell Town Hall

We know by the numerous storms, the wettest ever February/March and the expectation of 40°C heat this summer that the climate is changing. Let's find out how we can work together as a community to limit the worst effects of climate change and ensure that people and nature in Derbyshire continue to thrive.

Derbyshire Dales Community Energy Ltd and a newly formed Bakewell Climate Action Group are inviting you to a **free two-hour workshop**. It is suitable for anybody who wants to learn more about our changing world and gain an understanding of how we can work together to become sustainable. We will explore ways to work in harmony with our world and new methods to improve our environment, not destroy it. Learn how you can leave a positive legacy for your children and grandchildren.

The workshop is presented by the charity Change Agents UK and is fully funded by Derbyshire Dales Community Energy. You can find out more about it here:
